## **Who We Are**

With over 2 million successful installations and close to 60 years of experience in manufacturing air compressors, ELGi is a global leader in providing sustainable compressed air solutions. ELGi designs and manufactures an extensive range of innovative and technologically advanced compressed air solutions for a variety of industrial applications. Over the years, ELGi has earned worldwide accolades for designing customer-centric compressed air solutions that are sustainable, and help companies achieve their productivity goals while ensuring the lowest total cost of ownership.

# OUR ASPIRATION

**ELGi**  
Always Better.

## CONQUER K-2 (CK2)

Our Aspiration: To be the No.2 in the  
Global Air Compressor Market by 2027

**ELGi**  
Always Better.

# Global Presence & Future Ready

**100+**

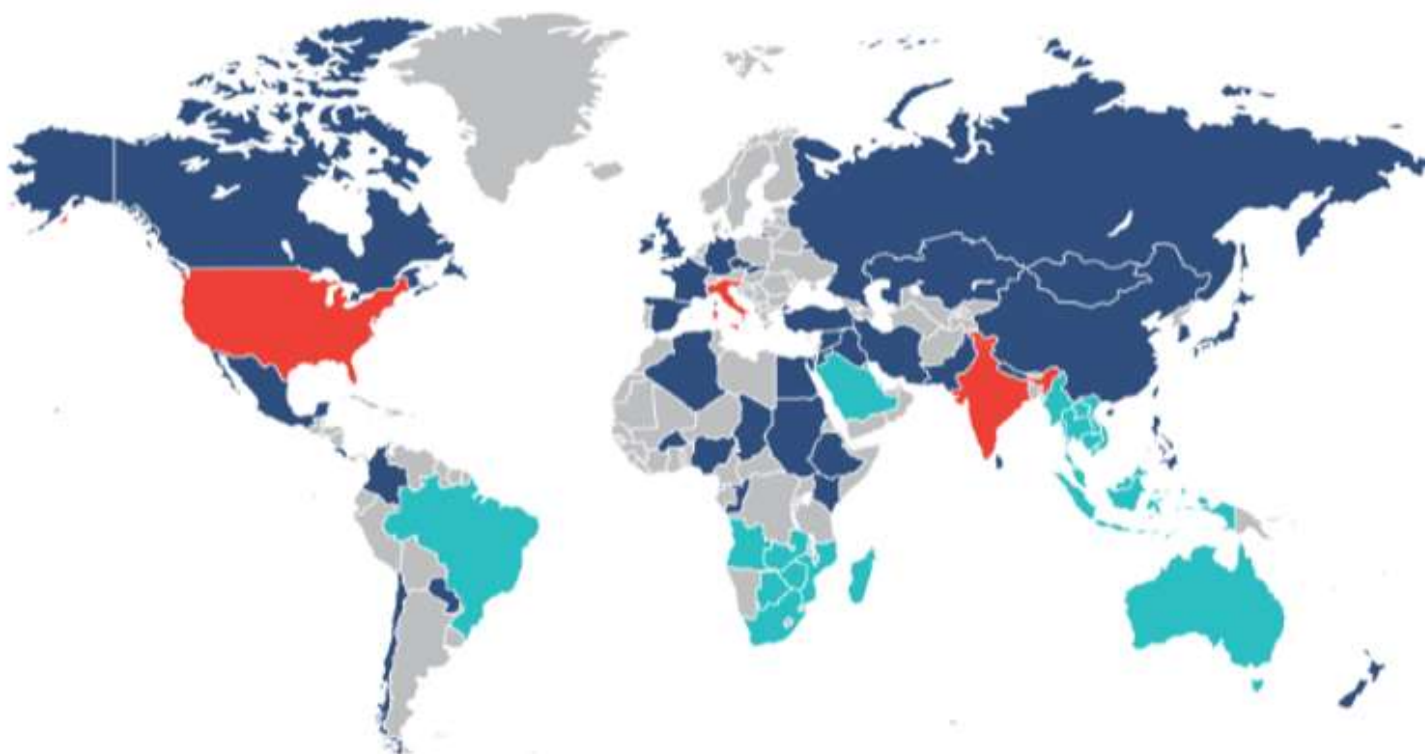

Countries where  
ELGi does  
business

**18**

Countries with  
direct presence

**03**

Manufacturing  
countries

## *Presence*

**200**

Distributors  
worldwide

**800**

Sales people  
worldwide

**1200**

Service people  
worldwide

**1500**

Employees  
worldwide

## *Infrastructure*

**5,000,000**

Square feet of factory  
land worldwide

**1,000,000**

Square feet of factory  
space worldwide

**100,000**

Square feet of dedicated  
parts warehouse worldwide

## **Our Global Footprint**

With our own manufacturing facility in Italy and our Headquarters in Belgium, we are set up to serve you and your customers. Our Sales Teams have significant expertise in the compressed air business, ensuring smooth problem solving.

Our manufacturing facilities in India are state-of-the-art: the ELGi Air Centre Plant spans over 465,000 square meters of manufacturing space in Coimbatore, India, and produces 15,000 airends a year. Our in-house foundry produces high precision grey and SG iron castings using the most advanced and environmentally friendly processes. Partnering with the best quality vendors in the world ensures we meet the highest quality standards while maintaining a strong competitive edge.

## Compressor Production Capability

### AIR COMPRESSOR PRODUCTION

ELGi operates three factories in the world with the same high quality standards using its own airends.

### PRODUCTION CAPACITY

**15,000**

Airends per year

**40,000**

Compressors per year

### FOUNDRY

ELGi's foundry produces high precision grey SG iron castings using the most advanced and environmentally friendly processes.

### PRODUCTION CAPACITY

**9000**

Metric tonnes per annum

**60 - 7000**

Pounds of castings

# ABOUT OUR PRODUCTS

## About Our Products

We manufacture a full range of compressors for today's industrial requirements. From time-tested, robust workhorses to advanced, sophisticated compressed air solutions, we offer an extensive product range.

ELGi's oil-lubricated compressors are our mainstream products for diverse industrial applications. Our oil-lubricated range offers long-lasting and cost-effective compressed air solutions.

# ABOUT OUR PRODUCTS

ELGi's oil free compressors are the backbone of a range of industrial applications. Customers rely on the oil free range for sensitive applications with zero tolerance towards oil and lower environmental impact. We are also one of the very few compressor companies in the world capable of designing and manufacturing oil-free airends.

We have also recently launched a disruption in oil free technology, check out our new AB Series

Finally, we have a range of diesel portable compressors from [Rotair](#) which are ideal for use in mining and construction sites. These compressors offer the benefit of quiet and low-emission operation.

# Complete Range of Products

**EG Series**  
Oil Lubricated Screw Air Compressor  
11 250 kW / 47 1612 CFM

**OF Series**  
Oil Free Screw Air Compressor  
90 450 kW / 572 2450 CFM

**CG Series**  
Centrifugal Compressor  
450 930 kW / 3000 5200 CFM

**EN Series**  
Encapsulated Screw Air Compressor  
2.2 75 kW / 8 469 CFM

**Oil Free Recip**  
Oil Free Piston Compressor  
1.0 75 HP / 1.8 300 CFM

**Oil Lubricated Recip**  
Oil Lubricated Piston Compressor  
1.0 40 HP / 2.0 128 CFM

**PG Series (Electric)**  
Electric Portable Screw Compressor  
22 75 kW / 131 514 CFM

**PG Series (Diesel)**  
Diesel Powered Screw Compressor  
175 1500 CFM / 100 - 400 PSI

**Variable Frequency Drives**  
**Receivers**  
**Dryers**  
**Downstream Filters**  
**Drain Valves**

## FOR ALL INDUSTRIES & APPLICATIONS

Automotive

Textile

Pharma

Rice & Pulse

FMCG

Food & Beverage

Leather

Railways

Paper

Nuclear plant

Electrical

Manufacturing

Healthcare

Aviation

Oil & Gas

Iron & steel

Mining

Construction

## What You Can Expect From Us

Always Better. This is our promise. How do we do this?

- We develop products with the best Life Cycle Cost for every customer.
- We guarantee best-in-the-industry uptime.
- We reaffirm our commitment to reliability by providing our customers with best-in-class warranty.
  
- **T**ransparency
- **R**eputation
- **U**nderstanding
- **S**ustainability
- **T**ogether

# BECOME A CHANNEL PARTNER

ELGi's partner community is the backbone of our business. Strong partnerships have enabled us to enter new markets, gain insights into evolving market needs and serve customers better. ELGi has in turn helped its partners grow their businesses with innovative and technologically superior products.

## WHAT PARTNERSHIP MEANS AT ELGi?

The ELGi partner community is the lifeblood of our business. Every ELGi partner benefits from the knowledge and resource investments ELGi makes in its partner community — support for technology implementations, staff training and knowledge sessions and more.

Always Better.
